

Medical Range Healthcare Storage Trolleys

Healthcare Storage Trolleys

This modern design incorporates the "Glide & Tilt" runner system, into a sturdy steel tubular frame.

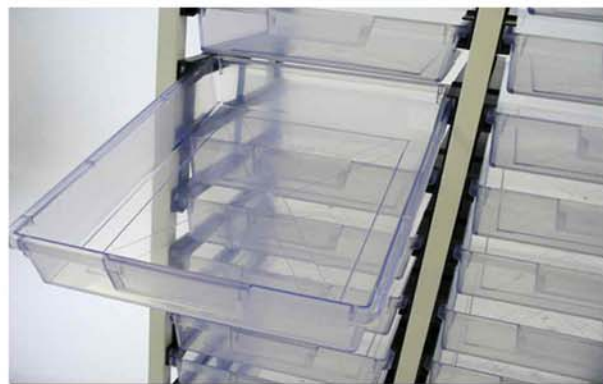

All frames are epoxy coated in white and all tops are 304g Stainless Steel.

All trolleys are available with clear trays, label holders and tray dividers.
(Trays, label holders and tray dividers are purchased separately - please see price list).

100mm castors are fitted as standard. (2 Braked & 2 Swivel).

Trolley tops are recessed to stop items from falling off.

Healthcare Storage Trolleys are a simple & effective solution for storage applications and offer excellent value for money.

Featuring the Glide & Tilt System

- Glide and Tilt system is available in all storage units.
- Holds trays in an angled open position.
- Allows easy access to tray.
- Clear display of tray contents.
- Eliminates tray "fall through"
- Combined with "supertuff shatterproof" clear trays makes for the safest storage system available.

At the heart of our Medical Range of Storage Trolleys are the clear storage trays with a range of divider trays.

- Trays are available in A3 & A4 and also clear making contents easily identifiable
- Clear storage trays moulded in 'Supertuff shatterproof' ABS.
- Tray dividers fit snugly into A4 size trays (2 per tray).
- Smooth internal surfaces for easy cleaning.
- Dual identification labelling system.
- Injection moulded plastic tray inserts.

If you have an application where our standard products are not to your exact requirements we do offer the ability manufacture special sizes.
Please contact us for a quote.
